ABSTRACT

This union list contains over 100 microform music collections from eight libraries which are members of the Mountain-Plains Chapter of the Music Library Association. The 22-page list includes major sets, series, and complete works of composers. Excluded are periodicals, single work/dissertation titles, and general collections that are currently represented in other union lists. (RP)

Microforms, often very specialized, can also be of marginal use to a single institution. As such, many institutions avoid purchasing large sets and series--or buying selectively. Access to as many of these sets is very desirable.

Included for this list are major sets (e.g. Music Collection of Christ Church), series (e.g. Denkmaler), and complete works of composers. Many of these sets and series are indexed in such sources as Heyer's Historical Sets, Collected Editions, and Monuments of Music. Excluded are periodicals, single work/dissertation titles, and general collections (e.g. ERIC), as these are presently in other union lists.

During the past several months, there has been an effort in cooperative collection development and resource sharing throughout the Mountain-Plains Chapter of the Music Library Association. This document, with data from regional libraries, will no doubt, be a continuing project for the chapter.

This edition was compiled using the word processing program of MultiMate, using either the OCLC M300 or an IBM compatible.

Listed below are the libraries which responded for the early editions and their symbols:
